**\*CPI trainings need 12 people in the class                      \*CPR trainings no more than 16**

We are offering CPI (Non-Violent Crisis Intervention) on the following dates. The training is a two day training. If you had training the previous year you are able to attend one of the refresher courses. The refresher course is a one day course. We know each school is responsible for a Crisis Team and also this training is part of your EPPS plan.

We have also included the training dates for CPR/AED and First Aide. If you would like to attend a training please e-mail M'Lu Ellsworth or call her at 598-4570 ext. 12090.

**CPR classes are now a hybrid class of online and in-person.**

The CPR dates are for after you have finished your on-line portion & have your completion certificate. You will need about an hour to complete the in-person training. We do not offer full day classes any more.

Other training times can be arranged if necessary.
