FACILITIES DEVELOPMENT GOALS / PRIORITY OBJECTIVES

Priority in the development of facilities shall be based on identified educational needs and on programs developed to meet those needs.

The Board establishes these broad goals for development:

- To integrate facilities planning with other aspects of planning in a comprehensive educational program.
- To base educational specifications for school buildings on identifiable learner needs.
- To design for sufficient flexibility to permit program modification or the installation of new programs.
- To design school buildings as economically as feasible, providing that learner needs are effectively and adequately met by the design.
- To involve the community, school staff members, available experts, and the latest in related current development and research in building plans and specifications.
- To analyze life-cycle costs as they compare with capital expenditures versus a maintenance and operations expense projection.
- To analyze the core facility as it relates to future expansion.
- To design school buildings for community use when feasible.

EDUCATIONAL SPECIFICATIONS FOR CONSTRUCTION

In the construction of new or remodeled educational facilities, the Board requires the Superintendent to develop a set of comprehensive educational specifications. In conferences with the architect, the following specifications shall be discussed for design inclusion:

- Information concerning the plan of school organization and estimated enrollment in the proposed building.
- A description of the proposed curriculum and the teaching methods and techniques to be employed.
- A schedule of space requirements, including an indication of relative locations of various spaces.
- A desired layout of special areas and the equipment needed for such areas.
- An outline of mechanical features and special finishes desired.
- Americans with Disabilities Act and Section 504.
