

Student Growth Data Overtime in *ELA* from Sept. to Dec. 2018 by comparing points between Benchmark to the next Progress Monitoring Data per each Month as measured by iStation.

- 8 out of the 13 students in Kinder made positive gains of two or more points between October, November, and December as compared to benchmark September data in ELA as measured by iStation.
- 7 out of the 13 students in 1st Grade made positive gains of three or more points between October, November, and December as compared to benchmark September data in ELA as measured by iStation.
- 14 out of the 21 students in 2nd Grade made positive gains of one or more points between October, November, and December as compared to benchmark September data in ELA as measured by iStation.
- 11 out of the 14 students in 3rd Grade made positive gains of one or more points between October, November, and December as compared to benchmark September data in ELA as measured by iStation.

Student Growth Data Overtime in *ELA* from Sept. to Dec. 2018 by Level 1 (Emerging), Level 2, Level 3, Level 4, and Level 5 (Proficiency) as a Projection of PARCC State Assessment as measured by iStation between Benchmark to the next Progress Monitoring Data per each Month.

- 4 out of the 14 students in 3rd Grade are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in ELA as measured by iStation.
- 2 out of the 13 students in 4th Grade are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in ELA as measured by iStation.
- 3 out of the 15 students in 5th Grade are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in ELA as measured by iStation.

Student Growth Data Overtime in *Math* from Sept. to Dec. 2018 by Level 1 (Emerging), Level 2, Level 3, Level 4, and Level 5 (Proficiency) as a Projection of PARCC State Assessment as measured by iStation between Benchmark to the next Progress Monitoring Data per each Month.

- 1 out of the 13 students in Kinder are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in Math as measured by iStation.
- 3 out of the 13 students in 1st Grade are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in Math as measured by iStation.
- 5 out of the 21 students in 2nd Grade are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in Math as measured by iStation.
- 4 out of the 14 students in 3rd Grade are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in Math as measured by iStation.
- 4 out of the 13 students in 4th Grade are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in Math as measured by iStation.
- 1 out of the 15 students in 5th Grade are in Level 4 and Level 5 between October, November, and December as compared to benchmark September data in Math as measured by iStation.
